## Recruitment Consultant

Our clients are a leading recruitment consultancy specialising in the engineering and manufacturing industries. The company operate across 5 UK offices employing over 100 recruitment professionals with an annual turnover of £20 million and a net fee income well over £5 million.

You must be highly motivated, driven and have a proven track record. Teamwork and communication skills are an essential part of the role.

This is a rare opportunity for self-motivated individuals to join a team with a strong reputation for recruitment excellence. They offer an exceptional salary and remuneration package

Ideally you should have at least 3 years recruitment experience within permanent or contract recruitment. Recruitment experience within the automotive, rail, aerospace, engineering or utilities sector would be advantageous.
